

# Back to School Organization

## School Papers

Go through folders as soon as kids get home. Sign and return, store, and dispose of all papers each day.

## Snacks

Designate bins for snacks in the pantry and fridge. This makes it easy for kids to pack their own snacks and grab one when they get home.

## Supplies

Create a caddy with the supplies needed to complete school work. Homework will get done much faster when all the supplies are in one easy to find spot.

## Schedule

Post a schedule with important events. Try using a different color for each person, which makes it easy to identify who is busy each day.

## Storage

Store backpacks and lunchboxes in a cubby or hang them the wall. You'll speed up your morning routine by having everything in one place.
